KANDY

KANDY

After pickup from Colombo, en route, you will visit the Pinnawala Elephant Orphanage which is a place in Sri Lanka where people take care of wild Asian elephants.

Finally, you will visit The Temple of the Sacred Tooth Relic, which is a world-renowned centre of worship that houses Gautama Buddha's left Canine tooth. UNESCO designated the temple, which is visited daily by hundreds of local and foreign devotees and tourists, as a world heritage site in 1988.

The temple, which is very important to Buddhists all around the world, also has enormous cultural importance. The architecture is of distinctive Kandyan architectural style, with a blend of the unique style utilised to build the "Dalada Mandira" shrines that formerly housed the Sacred Tooth Relic in other kingdoms.
